WELCOME FROM THE ANSC PRESIDENT

Welcome competitors and families and thank you for attending the Sealink 57th Sabot National Championships and Darryl Beattie Sabot Week hosted by Townsville Sailing Club.

I've heard from many Sabot sailors and parents before us that Townsville was the best. Terrific waters for racing and a close-knit fantastic regatta socially for families too. To our host club Townsville, we thank you for your support and we look forward to enjoying a great regatta with your members both on and off the water.

The regatta is a celebration of teamwork, mateship, inclusion and integrity all of which are important elements of our culture making the Sabot Family unique. Old friends from previous Nationals meet up again and new kids starting out in Sabot Week, make an enjoyable start to their Sabot journey, it's why we all keep coming back for the next one.

On behalf of ANSC I would like to thank all regatta sponsors – your support is greatly appreciated.

In addition, a very big thank you to all volunteers who have given their time to organising the regatta to make it special. Your effort spreads wider than just this regatta, it's invaluable promotion of Sabot sailing in general.

I'm looking forward to competitors experiencing personal best moments throughout the regatta and sharing these triumphs with teammates. I'm sure all sailors will achieve great things, build friendships, gain confidence and most importantly have fun.

My best wishes for fair competition and action-packed Sabot sailing!

Scott Day

ANSC President

REGATTA WELCOME

Juniors racing the Sabot Class Dinghy in the 2014-15
Australian Sabot Championships on Cleveland Bay

As the Commodore of the Townsville Sailing Club (TSC) I'd like to welcome you and your families to the capital of North Queensland to participate in the 57th National Sabot Championships from the 1st to the 8th of July 2021. We are looking forward to hosting your regatta and are well prepared to provide you with a first-class event, on the wonderful waters of Cleveland Bay.

Our Club has a long history, actively operating since the 1890s and is well established in the local sailing

community. We are located on "The Strand", the foreshore of Townsville in North Queensland, sailing off the beach on Cleveland Bay. TSC provides a friendly relaxed atmosphere for sailors, friends and families, with our Club House being open during the regatta for all to enjoy. The Club is committed to present unrivalled sailing opportunities for sailors of all levels.

Cleveland Bay provides excellent conditions and opportunities for sailors to enjoy. The waters in

TSC Philosophy — “Sailing being more than a sport. It teaches life-skills, resilience, self determination and lifelong friendships to all who participate.”

Cleveland Bay are described by visiting sailors as being the some of best conditions “in the world”. While watching the recent America’s Cup in New Zealand and Sail GP in Bermuda I appreciated that we have similar conditions. I know you will enjoy our playground.

Townsville is a great place to experience a laid-back tropical city lifestyle. The area offers a range of diverse experiences from the awe-inspiring Great Barrier Reef to the World Heritage Wet Tropics

rainforest, to the dirt and dust of the Australian outback. The magnificent Magnetic Island is only a 30 minute ferry ride away.

We look forward to your participation, believing that you will enjoy the best sailing and hospitality that TSC and North Queensland can offer, see you soon!

Craig Knight
Commodore

ABOUT OUR SABOT WEEK PATRON

My father introduced me to sailing back in 1967 in Cairns, where I began sailing sabots at age 7. I sailed both 2-up and 1-up and only managed to compete at one sabot nationals. From sabots, I moved into the OK dinghy class for a couple of years, it certainly was a challenge for me as my weight was less than ideal at about 55-60kg.

During my teenage years there was a lot of interest in the new Laser class, which I pursued for approximately four years. I was fortunate enough to be part of the Queensland Youth Squad and one year represented QLD at the Australian Youth Laser Championships. To gain this position, I had to finish in the top 3 at a Queensland Laser Youth Regatta in Brisbane amongst 40 laser youth competitors.

Still part of the youth squad, at the age of 19, I moved into the fast-growing catamaran division.

During my catamaran years, I began building my own boats which I saw as a huge advantage. It provided me with a solid understanding of the catamaran class and for several years I built boats for other competitors which created a strong and competitive fleet on the water. My passion towards sailing allowed me to win 9 consecutive Australian Cobra Catamaran Championships. After approximately 11 years in catamarans, the Etchell Class took my interest, as I always loved one design racing. I sailed the Etchell class for around 4 years and sailed at various State, National and World regattas. My best result was a 3rd at the QLD Etchell Championships.

At this point in time, I decided to introduce my eldest son to sailing and went on to build my first sabot. I took my son to compete at the sabot nationals in Sydney to introduce him to National level competition. To my surprise, this same year he won the 2-up Sabot National title which is when my focus began to shift. I put my sailing career on hold and supported my three children throughout their years in sabot sailing. This also led me to build around 12 more sabots over the following years. I felt this contributed to the development of a strong and competitive fleet of sabots in the Far North. This was the start of my involvement in sabots and the NQ Sabot Association.

As well as coordinating sabot training weekends, I helped to organise one

of the best sabot regattas in the Far North. The Pacific Toyota Sabot Regatta became an annual event and was designed to encourage sailors to experiment and change things not normally allowed at sabot regattas. I also became one of the official measurers for a short time at the Australian Sabot Championships.

Currently, I still have a laser, which I sail from time-to-time. My main involvement in sailing now is following my eldest son who just finished 3rd in the 2021 International A-Class on Lake Macquarie.

Darryl Beattie
Sabot Week Patron

Darryl Beattie
Sabot Week

WELCOME FROM THE NQSA PRESIDENT

Welcome to the 57th SeaLink Sabot Nationals and the Darryl Beattie Sabot Week.

The North Queensland Sabot Association (NQSA) and Townsville Sailing Club (TSC) are delighted to be hosting the Sabot Nationals and Sabot Week event this year. We would like to offer a warm welcome to all the visiting competitors and appreciate the effort to travel this far, it would not be an event without you. This event is a much-anticipated event in the sailing calendar. It is a great celebration of the Sabot culture and all that is great about the sport of sailing: the teamwork, the camaraderie, the joy of being out on the water, self-reliance and dedication. It gives young sailors the opportunity to compete in a first-class competition, test their skills

Figure 2
Grandma, Dad & Daughter all still sailing Cleveland Bay 2021

and improve their sailing techniques. It has been said that if you grow up learning to sail a Sabot, then you can sail anything!

I would like to sincerely thank all the regatta sponsors, the financial support was critical to enable this great event to take place, thank you for investing in our local and national future sailing champions. Also appreciated is support from the Australian National Sabot Council where some guidance from Scott

1979 Cleveland Bay

Day has contributed toward my ability to undertake the organisation of a national titles event. There are several other local people who provided in-kind sponsorship: your support is greatly appreciated. I am humbled by the support given by the local community. In addition, a big thank you is extended to the NQSA committee members, Peter Osborne, Jason Doyle, Emily Blumson and Pierre Striano, as well as TSC committee members Leandra Boothby and Colin Dunne, who have given freely of their time to help make this event happen. The event would not have taken place without the support of all the volunteers, the sabot sailors and sabot families. To our host club, Townsville Sailing Club, we thank you for your support and look forward to welcoming more

junior sailors to the sport of sailing, with your continued support.

We know that long hours of training are expended in the pursuit of sailing and we hope that all competitors will be happy with their performances, will have fun out on the water and will leave this event with great memories and enduring friendships.

On behalf of NQSA I wish all the competitors the very best for the regatta and would like to encourage good sportsmanship.

Keiran Mathieu
President NQSA

SOME HISTORY ON SABOTS IN NORTH QUEENSLAND

The North Queensland Sabot Association has a long history of promoting junior sabot sailing learning, training and competition in North Queensland. The exact date of origin not really known by the president at the time of printing however what has come to light in my search for historic records is that the origin of sabots in North Queensland has been traced back to 1955 in Townsville (figure 3), 1954 in Mackay (figure 4) and 1953 in Bowen (figure 5). Perhaps the first sabot national title held in North Queensland was in 1968-69 on Cleveland bay Townsville as evident in figure 7.

Some interesting points from the articles in figures 4 & 5 from the Mackay Daily Mercury and Townsville Daily Bulletin respectively are: the origins of sabots in NQ; the subsequent development of local sabot boat building skills in NQ mentioned in figure 5; and also the early day version of what is called nowadays as “She Sails” evident from the “Women as Skippers” article in figure 6.

From these historic records the first account of sabot boat building appears to be in Bowen in 1953, followed by Mackay in 1954. Darryl Beattie’s father built a plywood sabot from a kit in the late 1960’s that was supplied from somewhere in Qld, possibly North Qld. According to local knowledge, sabots were built in Townsville by people such as George Kimlin and Mel Webb, approximated to be in the 1960’s-70’s, and most likely by their predecessors in the 1950’s. After this time it appears that sabot building in North Queensland dropped away, perhaps with the exception of a stitch and glue plywood kit boat built in a backyard, as I do recall one stitch and glue sabot in Townsville in the early 80’s. Sabot building resumed in the early 1980’s in Cairns by David Ormsby, followed by Peter McDonald in the late 1980’s and then Darryl Beattie from the mid 1990’s onward, all building foam sandwich sabots. It seems, to the best of my knowledge, that this craft was not continued post the Darryl Beattie era of sabot building in NQ. Perhaps plans were available in the 1950’s to build those early sabots in NQ by clubs and in back yards.

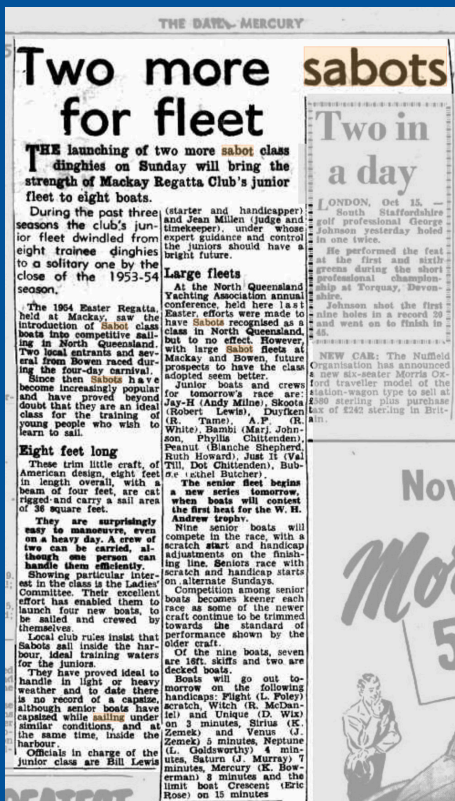

Figure 7
Sabot National Titles Townsville 1968-69

Figure 8
Newspaper article Whyalla 1953

Figure 9
Townsville Sailing Club Cleveland Bay Sabot Championship series 1980

My first sabot, NICNAC, in figure 1, thought to be built locally by George Kimlin, achieved some good results, however from the late 70's into the 80's it became apparent that to be competitive in sabots you really needed to have a Cec Lea hull from Brisbane. After the successful Cec Lea era of competitive, lightweight plywood sabots, the 'plastic fantastic' foam sandwich hulls started to

become popular and remain so today, where you probably need to be in a foam sandwich hull to be competitive. However, I have a theory that if you could buy a Cec Lea plywood hull today, and put a modern sail and rig on it, it would be competitive with today's foam hulls; after all, the minimum weight has not changed, which used to be achieved with those lightweight plywood hulls.

NICNAC 2-up Cleveland Bay

Little Evelyn & NICNAC Cleveland Bay

Robbie Lea & Cec Lea Townsville Nationals 1973-74

Robbie Lea & Cathy Miers 1973-74 Cleveland Bay

Another interesting article found through my history search was the article in figure 8, where it appears that sabot building also commenced in 1953 in Whyalla.

I often think wouldn't it be a wonderful thing, although more of a pipe dream than a reality, to re-ignite some interest in localised backyard plywood sabot boat building. This would be a great activity and opportunity to connect with and impart skills and knowledge with our kids, however this would be challenging in modern times with our busy lives. I have memories of spending many hours learning plywood sabot maintenance and damage repair working alongside my father, something I am yet to achieve with my daughter, maybe one day...

Inspired by researching historic records about the origins and development of the sabot class dinghy in North Queensland the NQSA is committed to promoting junior learn to sail and development of advanced racing skills in the sabot class post 57th nationals in North Queensland. These efforts will contribute to ensuring future longevity and popularity of the class for our children and grand children in the north and ultimately towards the survival of the class nationally into the future.

I invite you all to please raise your glass for the sabot class. **KM**

Australian Sabot Championships on Cleveland Bay

LIONEL SHIPWAY MEDAL

The Lionel Shipway Medal recognises sailors who have competed in six Sabot Nationals and/or Sabot Week Regattas.

It acknowledges the efforts of sailors who consistently compete and apply themselves in sabot sailing, irrespective of where they finish.

The medal honours the late Lionel Shipway, 'the Father of Sabot Sailing in Australia', who was the driving force in building and promoting the Sabot as a junior class.

In 1958, Lionel and his son Peter participated in the first sabot race, held in Vaucluse. By 1960, there were around 70 sabots sailing in Sydney harbour.

On Australia Day 2001, Lionel Shipway was awarded the Order of Australia Medal for services to sailing through promotion of the Sabot class and the instruction of juniors.

Recipients of the Lionel Shipway medal for the 57th SeaLink Sabot Nationals are:

**Miles Greenwood
Smith Davies**
